

Breakdown of the **PLASTABRICK** System 300

APPLICATORS

Plastabrick has a licenced applicator base who participate in training and site supervision prior to maintaining a license. A Plastabrick Licensed applicator will provide you with a quotation directly (contact Plastabrick for your local licensed applicator), or you can send your plans to the address below and you will be forwarded the contact details of either your local applicator or we shall point you in the direction of the applicator who best suits your requirements.

RE-CLADDING

Plastering over your older home will increase its market value and add a whole new dimension to the architecture. Whatever the substrate, be it brick, weather board, or hardies, Plastabrick has the ability to adapt an exterior texture solution to enhance your house. Contact us for your local Plastabrick applicator who can provide you with ideas and a no obligation free quote.
